Cosmo Alexandre made his MMA debut a few weeks ago, and it was a tentative and downright terrible affair for all involved. His opponent was able to do enough to pull off the decision victory while Cosmo seemed afraid to let his hands go and open up the takedown. Sometimes in MMA it is just a matter of experience, or getting your sea legs. It doesn't matter how good you are in the gym, it is different in the ring. Cosmo has such a great standing skill set that his grappling was a clear weakness and had him worried, but come this weekend and his second fight, that was something of the past. Watch as Cosmo shows the MMA world what the Kickboxing and Muay Thai worlds already knew.
